

Clark Forklift Part

Clark Forklift Parts - At this time, there are no less than 350,000 Clark forklifts performing worldwide, and in excess of 250,000 in commission in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive designs of forklifts, with parts covering more than 120,000 specific components for all of its automated equipment. Your local Clark Seller is your complete source for availability of all your parts needs provided by Clark Totalift.

Clark has a phenomenal Parts Distribution team. The parts warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to offer the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a really amazing worldwide support network. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the materials handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, revolutionizing protection features such as the worker restraint system. This exceptional commitment to safety is currently a customary feature on every forklift.

Clark's relentless goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the world to be certified with the globally approved quality standard ISO 9001 for every one of their production plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental limitations, thus placing them in a dominant industry position.

Clark has selected the structure of "Lean Manufacturing" at all of its assembly plants because this method is particularly economical and allows for minimal use of resources. Developed to guarantee maximum proficiency, this system is intended to find and acknowledge the most efficient methods for manufacturing facility stewardship. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to enhance the proficiency and brilliance of their products while minimizing expenses. The contemporary value engineering agenda combines progressive product development and delivers improved customer support and service within the industry.
