

## Spreader Bar for Forklift

Forklift Spreader Bars - ELME has been proudly operating ever since 1974, becoming the biggest independent spreader maker in the world. They are a devoted maker of spreaders meant for a lot of various applications like for instance the swap bodies, trailers, and handling of containers.

ELME currently employs more than a hundred and twenty five employees with all engineering is done in house by way of making use of all of the latest CAD systems and FEM tools. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks around the globe.

The product range of ELME include many spreaders used for several container and trailer handling operations. Several of their inventory consist of: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes plus a wide variety of attachments.

ELME production and manufacturing is done in a highly automated purpose built factory. In the year 2008, they made more than 1150 spreaders by means of using top quality parts to be able to ensure dependability and high standards while offering competitive prices. Major characteristics of ELME consist of design simplicity, market response and ground-breaking modular spreader concept.
