

Concrete Hoppers

Concrete Hopper - The self-dumping hopper attachment can automatically start to both dump and release when the bumper release touches the side of a dumpster. After unloading is completed, the hopper can return to original locked and upright position. This piece of equipment also comes together with a cable that allows operation from the seat of the forklift so as to have the option of manually unloading the hopper. There is a locking chain provided in order to lock the hopper to the fork truck. This product is constructed with reliable and consistent robotic welds for utmost strength. The forklift dumping hopper also has a blue powder coat finish to maintain durability.
