

TCM Forklift Part

TCM Forklift Parts - Forklift trucks are a major player in the material handling field of each and every international business. Transporting industrial goods takes place each and every day on our hectic planet. Initially innovated as industrial vehicles in the 1930s in the United States of America, lift trucks gained recognition after World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machines spread worldwide.

First established as Toyo Carrier Manufacturing Company Limited, in 1949, the business was later renamed Toyo Umpanki Co. before becoming known as the TCM Corporation. Established by Mr. N. Niwa manufactured Japan's very first forklift. Through the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation in the business. TCM started constructing forklift manufacturing locations outside of Japan during the 1980s and is now engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

With more than fifty years of accumulated expertise and technology, TCM has been proudly manufacturing several models of industrial forklifts, making their models recognizable all over the world. With a strong and energetic staff, TCM has been able to continually work towards becoming a future leading material handling business.
